

**IDC5**  
SOFTWARE  
UPDATE

**MARINE 18.2.0**

April 2024

# IDC5 MARINE 18.2.0

**IDC5 MARINE** is the practical software that guides the mechanic through all the diagnostic operations in a practical and safe way. It provides important information to support the diagnosis, such as nominal values associated with errors, technical data sheets and interactive wiring diagrams. It allows you to work on many models of inboard and outboard marine engines, industrial engines and generators, personal watercraft, and covers **50 makes** and over **900 models**.

To learn more about the extraordinary coverage made available by TEXA, visit the website:
